

British Museum

4 Oct 1871

My dear Dr Gray,

Will you permit me  
to introduce to you Mr  
J. C. Melville, a student  
from our Cambridge, who  
has devoted considerable  
attention to Botany, and  
who has made some  
important observations on  
our British Flora -

Believe me ever  
Yours faithfully  
W. S. Wentworth
